The Marden Companies: Rehabilitation Services

Columbus West Park entered into a new partnership with Marden Rehab in the fall of 2008 to provide therapy services. They have provided us with a wonderful team that we consider an extension of our own. Our therapy group consists of two occupational therapists, a physical therapist, two physical therapy assistants and a speech therapist, who has worked at Columbus West Park since 1996.

We are working to open an out-patient therapy center later this year, following renovations to our Therapy Room.

Assistant Administrator Leo Welsh Featured on WSYX

Columbus West Park Assistant Administrator Leo Welsh is well known around Columbus for singing the National Anthem at the Columbus Blue Jackets home games. He was recently visited at Columbus West Park by Clay Hall for a interview for Channel 6's "Behind the Game" sports segment. The interview, including Columbus West Park owner Tom Stewart at the piano, can be found online at http://www.wsyx6.com/newsroom/sports/vid_154.shtml.

Leo will be featured in the Life section of *The Columbus Dispatch* the week of March 23rd. He recently welcomed his first child, a son, Kevin. Congratulations, Leo!

Phase One of Columbus West Park Renovations Completed January 2009

In January the first phase of Columbus West Park's renovations came to a close. Much of the building received a face-lift. Interior decorator Pat Merritt of Designs by Merritt, Ltd. worked with facility administration to come up with a new look for Columbus West Park.

The front lobby and the Plum Unit corridor have new flooring and wallpaper. The Private Dining Room was updated with new wall coverings, new carpet, new lighting and built in storage cabinets. Since this room doubles as a conference and training room, we will be adding a large flat screen television.

The Main Dining Room has been completely renovated. There are new floors, lighting, wall coverings and window treatments. We purchased new tables and chairs, and a china cabinet. As you can see in the picture we have a new dividing wall with stained glass to separate the dining room into two smaller areas. We installed a large flat screen television for the residents to enjoy during meals.

The Library (formerly known as the Plum Lounge) also underwent major changes. It went from being a cold, tiled room where some residents ate their meals, to a warm, carpeted library with several cozy seating areas and large shelves full of books. It has a fireplace and large flat screen television.

The patient rooms on our short term skilled unit had been renovated with new wall covering and lighting two years ago. As a part of the latest updates, we added fully electric beds, individual flat screen televisions and telephones for our short term residents to enjoy. All the residents in the building now have cable TV access and most rooms have telephone hook up available.

Finally, pictured on the right, is a semi-private room on our long term unit. These rooms have been updated with new wall covering, window treatments and bedspreads.

Please call Admissions Director Amanda Elliott at (614) 274-4222 for a tour!
